

You Draw it, We'll Build it

Curved Glass Balustrade - CITY OF PERTH LIBRARY

Level 1 of the new City of Perth Library features a curved glass balustrade supplied and installed by the RAM Fab team. The glass sits in a custom made curved channel with a Stainless Steel trim.

Crown Towers Project

RAM Fabrication is currently working on the new Crown Towers Perth project for builder, Brookfield Multiplex.

Having successfully tendered for the architectural metal works package, RAM Fabrication is manufacturing several handrails and balustrading, bollards, gates, bike racks, stone cladding frames and the ballroom steel works.

We are proud to announce that all manufacturing through RAM Fabrication is being done here in Perth by local trade's people.

Brookfield Multiplex commenced construction of Crown Towers in March 2014. Once completed, the hotel, situated on the Swan River in Burswood will include 500 rooms and include restaurants, bars, resort and convention facilities. RAM Fabrication is excited to be a part of this construction project which will enhance the entertainment precinct for patrons of Crown Casino and Resort.

Gateways Shopping Centre

RAM Fab has been involved in putting the finishing touches to the Cockburn Gateways Shopping Centre Expansion Project with Builder, **Cooper and Oxley**. RAM has supplied and installed items such as:

- Bollards (pictured above)
- Plant Room Handrails
- Aluminium Ramps
- Mechanical Riser Covers
- Stainless Steel Corner Guards

As Gateways is a fully operational Shopping Centre with most of the shops open long hours over the December/January period, the RAM boys often worked through the night to get the job done.

RAM Fabrication is proud to have worked on a local shopping centre that has become a major retail centre for Perth's Southern corridor.

Staff Profile - Hamiora Rangiuia

Hamiora (Hami for short) has 5 years experience as a metal fabricator tradesman. Originally from New Zealand, Hami has been with RAM for 2 years and is our specialist handrail bending guru!. Hami's partner has just had a baby girl. Be sure to say G'day next time you see him on-site.
