

Crown Towers Perth

A flagship project for RAM Fabrication, Crown Towers Perth was completed in November 2016 and opened its doors to the public in time for the Christmas holiday rush.

The craftsmanship that is displayed in this project is second to none. Crown, through builder Multiplex Constructions has 'upped the ante' with finishes to a very high standard.

The exotic metals such as brass and rose gold used throughout the public areas give the hotel foyer an opulent feel, but in-keeping with modern design features.

RAM Fabrication specifically worked on:

- The main staircase from the pool to the front desk foyer incorporating Brass, Glass, Steel and Timber into the feature balustrade.
- Trellis Posts along the northern side of the All Day Dining area, rigged with wire for Jasmine plants to grow up over the years and offer a beautiful smell for the guests. The Trellis incorporates a glass canopy as a ceiling between each post.
- Custom cut decorative screens in the landscaping areas and matching screens outside the VIP bar and coffee lounge.
- Stainless steel, Glass and Leather balustrade in the Villa Suite.
- 14 Levels of Fire Stairs.
- Back of house Stainless and Aluminium works and loading dock handrails.
- Carpark metal work such as bollards, movement joints, sprinkler boxes and column protections.
- Other metal works in the Ballroom, Café, Bar, Pool Bar, Lobby bathrooms, kitchens, Lift Motor Room, Boiler Room and entrance areas.

The new hotel has demanded exceptional quality especially in the luxury Villa Suite and other areas of the lavish hotel.

RAM Fabrication is very proud to have been selected to work on this project and thanks builder, Multiplex Constructions for their tireless attention to detail in building one of Perth's best hotels.
