

RAM

FABRICATION AND WELDING SERVICES

You Draw it...

...We'll Build it!

www.ramfab.com.au

RAM Fabrication is your one-stop-shop for architectural metal fabrication.

We offer a **conception to completion** service including:

RAM Fabrication is an architectural metal fabrication company.

Western Australian family owned and operated, RAM Fabrication can take care of all your metal manufacturing, welding and installation needs.

The staff have been successfully working in all aspects of metal fabrication for over 25 years with qualifications and experience in Metal Fabrication, Building & Construction and Balustrade installations. We specialise in welding and fabrication of:

- mild steel
- stainless steel
- aluminium
- brass

The workshop is well equipped with machinery and tools allowing a consistent quality product and service.

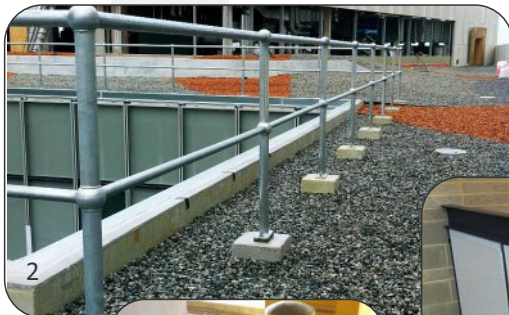

As a custom manufacturer, RAM can make anything off a drawing, but the main products lines include:

- handrails, guard rails and kick rails
- balustrades
- glass and glazing installation
- column protectors
- metal cladding and trims
- large custom designed gates
- access platforms and walkways
- bollards
- frames
- movement joints
- bike racks
- supports and brackets
- grating and screens
- fencing
- shade shelters
- car park accessories

Coloured backed glass balustrade
in the foyer of Fiona Stanley Hospital
